Not sure if my protest will make any difference to the debate on puppy farms. But like so many people in this country I find the whole process abhorrent. Female dogs kept in appalling conditions to breed until they can produce no more - then got rid off!!! A money making machine for so called "breeders" many who are registered with Kennel Clubs across this nation. Do a thorough investigation, speak to the wonderful folk on the front line I.e. RSPCA and the many volunteers who work tirelessly to end this disgusting trade.
Yours sincerely, Brenda Simmonds
